

Installation Guide

Method 1

- (a) Solid Wall
 - With flatness $\leq 4\text{mm}$
- (b) Wall Panel
- (c) Adhesive with clip system
 - Punch + Expansion plug + Self-tapping screw
- (d) Distance between clips
 - 300-400mm

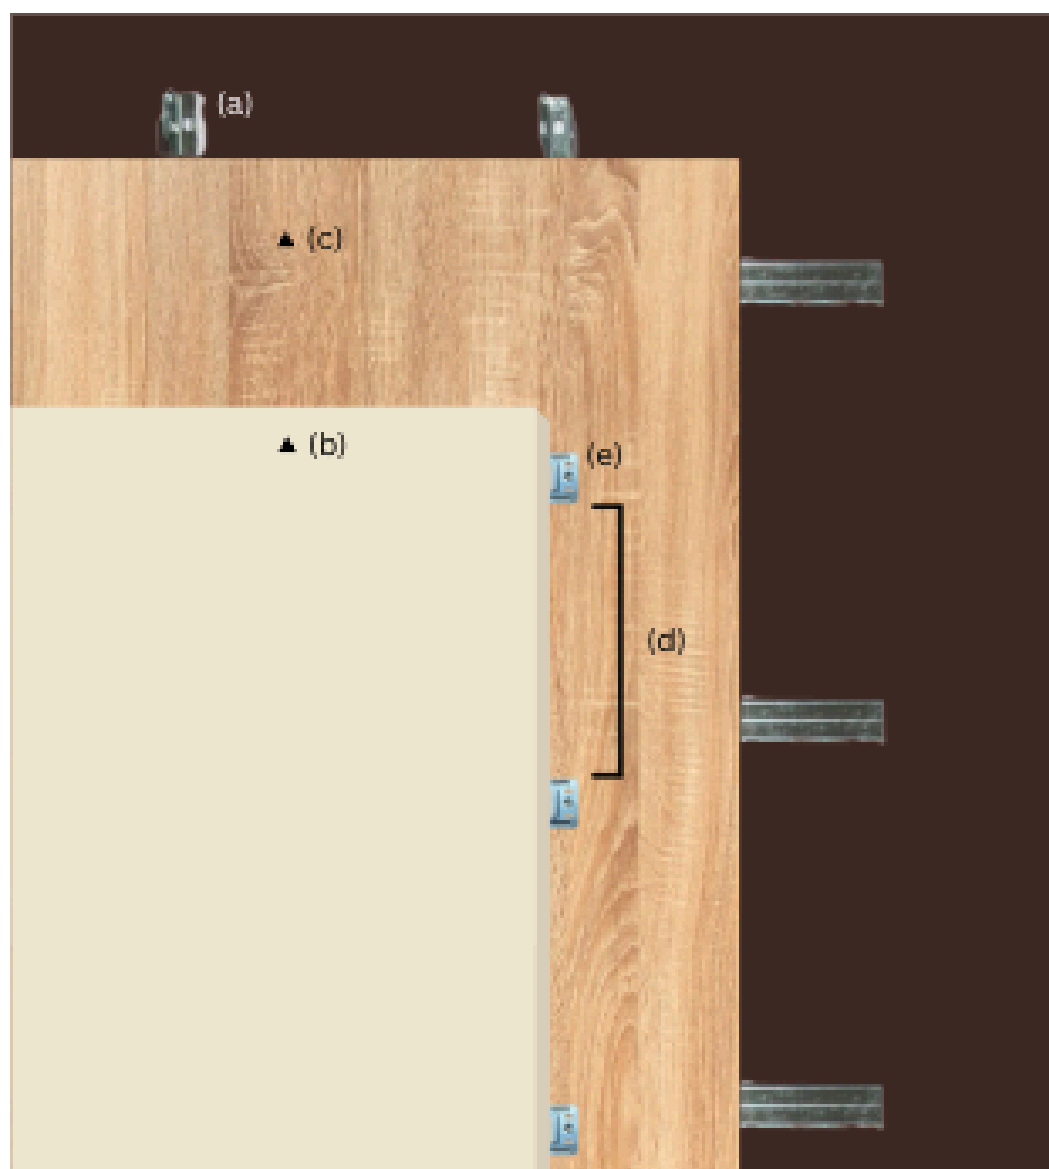

Method 2

- (a) Solid Wall
 - With flatness $> 4\text{mm}$
- (b) Wall Panel
- (c) Recommended batten
 - Thickness: 9mm
 - Width: 60-80mm
 - Length: 1000-1240mm
- (d) Distance between clips
 - 300-400mm
- (e) Gap between batten
 - 5mm
- (f) Clip system
 - Punch + Expansion plug + Self-tapping screw

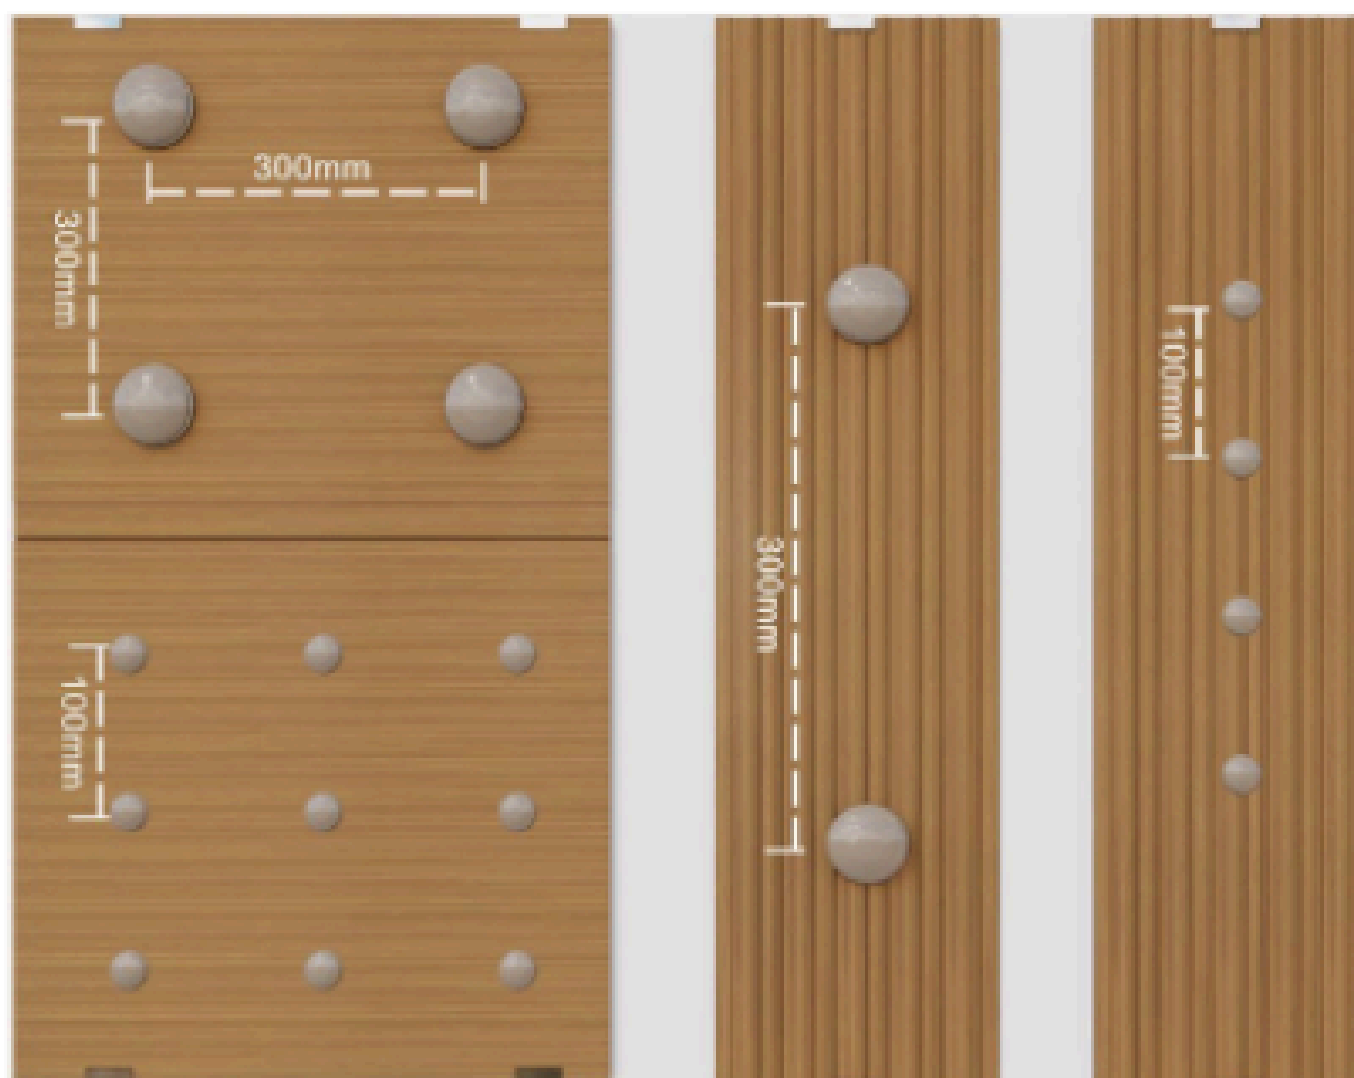

Installation Guide

Method 3

- (a) Steel stud
- (b) Wall Panel
- (c) Plywood
 - 2440mm (L) x 1220mm (W) x 9mm (T)
- (d) Distance between clips
 - 300-400mm
- (e) Clip system
 - Punch + Expansion plug + Self-tapping screw

Adhesive

Method 1

Apply one adhesive point every 300mm, with area of 20mm x 20mm.

Method 2

Apply adhesive every 100mm, with an area of 10mm x 10mm and thickness of 10mm.
